
Silver Creek Falls: Chapter 2 Crack 64 Bit

Download >>> <http://bit.ly/2NReqoa>

About This Game

One week after the eerie events occurred in Silver Creek Falls, the sleepy town in North Carolina is hit with yet another tragedy. An FBI agent is brutally murdered in cold blood in his own bedroom. No one knows who did it or why. Only one thing is clear: something truly sinister is broiling in Silver Creek Falls.

Play as Boston-born detective Sara Fitzgerald, as she continues her investigation of this creepy town as a plot far more convoluted and intricate than she could ever imagine unfurls!

This is the 2nd installment in the "Silver Creek Falls" saga and much like its predecessor is a mystery/adventure game featuring:

- A deep, thrilling and immersive story
- Mysterious background stories
- Orchestral and Ambient Soundtrack

-
- Beautiful and unique art style
 - Hidden and non-hidden items
 - Eerie environment
 - Explore the town of “Silver Creek Falls” and unlock its secrets
 - Original and challenging puzzles for those who like to think

silver creek falls chapter 2. silver creek falls chapter 2 walkthrough

This is the middle part of the long mystery. It is interesting, ups the ante a bit, and adds a few features. You will enjoy it, though some of the walks and puzzles can be a pain at times.. I have been waiting for Chapter 2 since I finished Chapter 1 and I have to say that it worth it. Sapphire Dragon did a great job with the second chapter as they created a longer story and also new difficult puzzles. I am glad that somehow they continued the story from the first chapter.

Also I have to say that is a great improvement that they implemented a local map of the town, so I didn't had to get lost again. Inventory seems the same, but now in Chapter 2 you have more items to collect.

The new Steam achievements for the game are great as well and you really have to struggle to complete them, which is awesome.

From many 2D pixel games I have to say that this one started to be one of my favorite. However, I am a bit disappointed about the soundtrack, which needs to be improved and also perhaps some voices for the main characters would be nice.

Overall, the second chapter is really good and I can't wait for Chapter 3 to be released.. I loved the first game in this series; this one also fails to disappoint.. I must have been a couple years since I complete the free first chapter of this game. Was on my wishlist ever since, and finally got around to buying and playing the rest.

Chapter 1 I felt had more mystery of if the culprit was human or some kind of creature with hints of the supernatural. With this installment, we're starting to get more of a clear picture on the matter. (The hidden story about the Croatoan in Roanoke was part of what lured me in to go to uni there, btw.)

I enjoyed seeing more of Sara's character, her little quirks, and am interested in playing the next part.. Nice little game.. The first episode was free so I didn't mind that being bland and short.

However, the apple fetch quest and the maze near the end of the game where obviously included to lengthen game what was just as short at the first episode.

Not bothering with the 3rd installment

Otherwise an absolutely average [game....in](#) a score system from 1 to 10 with 10 being "awesome" and 1 being "crap"....this scored a 5 "Kevin"

Hello everyone,

Normally I don't write reviews about games I play on Steam, however this one I had to. I happened to stumble up Silver Creek Falls Chapter 1 around the beginning of September and since it was free, I figured I would give it a try. It hooked me in like a video game should. The characters had depth, the gameplay was outstanding and it left me with wanting to unravel all of its secrets. I thought I would've have to wait years before I would be able to play the second part, however I was pleasantly surprised to see that it had already come out.

Now, this game is relatively short, however the puzzles took awhile, so if you were able to solve them within a few minutes the overall game would probably be 3-4 hours depending. This had so much more content than the previous chapter and once again the developers did an amazing job and left this chapter off with a cliff hanger. Always leave the audience wanting more, and that's exactly what they did.

This game isn't everyone's cup of tea, however It's definitely worth the 4.99\$ You won't be disappointed.. The intrigue continues in Chapter 2 with a little more delving into the murders. Things are getting a little more sinister as our heroine investigates the case.

Good chapter with more atmospheric music.. can you fix this cat bug please
. My first impressions:

I played already the first chapter and it was really short, but I liked it. So today finally the second chapter came out and after a peek in the game, I already see that there definitely is some work put in here. Details are important and it shows. Also the narrative is interesting and it really seems, that they aren't lying about, that you should listen/read carefully. If things keep going in this direction, it will be a great game definitely worth its price. I will update the review when I finish this chapter.

Btw.: Thank you for this nice birthday gift!. I was hooked with the Chapter 1 and after reading all of the reviews, I finally buy it.

It last a bit longer than the first chapter, with more mystery and even few message to cypher. The twist ending do make me hooked and want to buy the third chapter. But I honestly think that the price is a bit too expensive for a game that I only play once and not last that long.. very good game. interesting.. I have never got so caught in a game like this one, and i actually want more, i hate it that it was left with a cliff hanger at the very end but it got stuck to me, i love it. I have played both 1 and 2 on my channel and enjoyed them immensely,not only am I a huge RPG fan but a writer as well and love a good story, the intrigue in this series is top notch and anyone into murder mysteries or thrilling tales would enjoy such a game! Totally can't wait to see how part 3 wraps up this month!. Not bad at all. Better puzzles than the last game, and far larger in scale. However, I do have a few gripes.

First off, I was disappointed that Phil, a character from the first game, isn't present in this one. Instead, he's been replaced by a goofball FBI agent, who serves the story well granted, but still. I would've preferred him as an addition to the cast, rather than as a replacement.

Secondly, the story got a little... muddled? I feel like the pacing could've been improved overall. It wasn't difficult to understand, but it just felt like something was off.

Despite these two nitpicks, the game was enjoyable, and I will be picking up the third to finish the story. I would recommend the game on sale, though, since some may consider \$5 for 2 hours a bit iffy.

Edit: Having now completed Chapter 3, thus finishing the series, I'd advise that you not continue these games. Although my above statements still stand regarding Chapter 2, the sequel is a major downgrade. Tedious puzzles, bad dialogue, and an unsatisfying conclusion lead to me telling you to avoid this series as a whole. There are much better uses of your time and money.
